

# Payment Cards Processing at UNL

VOLUME 20, ISSUE 2

MAY, 2025

University of Nebraska-Lincoln

## PCI Compliance Paperwork Due Friday, May 23rd

The first step in PCI compliance is to collect each merchant account's compliance paperwork. The same documentation as in past years will be required: **Merchant Profile** and **Procedures Document with Cardholder Data (CHD) Flowchart**. Merchants will also need to do a SAQ, coming soon (see page 2).

**How do you get started?** For each merchant account, you need to review, update, and submit:

- **Merchant Profile** – FY 2024-2025 forms are available here: <https://pci.unl.edu/node/155/> (please use the current forms as fields may have changed)
- **Procedures Document with a current CHD Flowchart** – narrative (no standard form)

**REMINDER:** Do not combine merchant accounts on these documents. We need a completed profile and procedures document for each merchant account/number.

Create a PCI FY 24-25 folder for retaining your documents. Download the current Merchant Profile form <https://pci.unl.edu/node/155/>

Access last year's PCI FY 23-24 files. Review last year's documents and update information to accurately reflect this year's processes. Save the updated documents in your new folder. New merchants will need to create all documentation. The procedures document is a narrative of your processes and should incorporate the following:

- make, model, serial number and location of all equipment\*
- details of all payment channels
- storage/purge details of cardholder data (if appl.)
- demonstration of segregation of duties in place
- flowchart of cardholder data
- individuals involved in payment processing
- staff training requirements
- information on reconciliation process
- signature of department head

**\*Be sure your PCI documentation is updated to reflect new equipment and processes.** The popular Stand-alone Ingenico Desk 3500 terminals connect via Ethernet with Safe-T Solo solution to encrypt data.

Each merchant must have a detailed description of the processes in place for their card activity. These procedures are not only necessary for us to gain an understanding of your CHD environment, but are needed so you, in the department, have an understanding of the process and ensure all necessary safeguards are in place for safe cash handling and security. They are also essential to meet PCI documentation requirements.

Please submit your updated documentation by Friday, May 23rd to: [bursar@unl.edu](mailto:bursar@unl.edu)

### PCI Data Security Training - 2024-2025

This program is made up of two Payment Card Industry (PCI) data security courses. Questions or

PROGRAM / 2 STEPS SHARE

All personnel involved with card processing need to annually complete card data security training. To satisfy this requirement, Firefly-Bridge course **PCI - Payment Card Data** needs to be completed.

Firefly-Bridge link:

<https://nebraska.bridgeapp.com/learner/programs/5e897251/enroll>

Complete Course 1 **PCI - Payment Card Data**.

(Best viewed in Google Chrome)

Since your department knows which individuals are involved with card processing, the monitoring and documentation of this training is the department's responsibility.

## University of Nebraska-Lincoln

### Information Technology Services (ITS)

Chris Cashmere [ccashmere@nebraska.edu](mailto:ccashmere@nebraska.edu)

### Office of the Bursar

Lisa Hilzer [lhilzer3@unl.edu](mailto:lhilzer3@unl.edu)

Jennifer Hellwege [jhellwege2@unl.edu](mailto:jhellwege2@unl.edu)

The PCI Compliance Team is a collaboration between Information Technology Services (ITS) and the Office of the Bursar. It is a cross-functional team responsible for administering the University of Nebraska-Lincoln payment card policies and procedures, monitoring payment card activity, and educating merchants.

## COMING SOON: PCI Compliance Self-Assessment Questionnaires (SAQ)

One of the most important merchant responsibilities for maintaining PCI compliance is completing and submitting the annual Self-Assessment Questionnaire (SAQ). To meet this responsibility, each University merchant account is required to submit a SAQ thru the Elavon PCI Compliance Manager portal.

- \* If your department uses only Stand-alone terminals, the PCI Team will collect the necessary information on a SAQ form and submit the SAQ on your behalf as a single group. Watch for the DocuSign SAQ form email.
- \* For merchants with unique operations or non-Stand-alone terminal setups, such as eCommerce stores or Point of Sale Registers, we will schedule Zoom meetings to aid in completing and submitting the required SAQ. The Zoom meetings will primarily occur in June. Watch for a Zoom meeting setup email.

**ATTN New Merchants:** If your merchant account is new this year, you may have done a mid-year SAQ. We will still ask you to repeat the SAQ process in June to align your compliance reporting with the rest of the University merchants.

We will continue with the goal of completing our compliance efforts by June 30th of each year. This is consistent with efforts on the other campuses as well.

## Knowledge Base Article - PCI Scanning and Scan Attestations: Guidance for Merchant Representatives

SAQ-A eCommerce merchants have been required to submit an Attestation of Scan Compliance document quarterly since PCI DSS v4.0 went into effect last spring. IT Security has provided instructions and guidance for merchant representatives in the following article: <https://nusupport.nebraska.edu/TDClient/33/Portal/KB/ArticleDet?ID=543>

Review this article to be certain you are taking the appropriate actions to obtain and submit your eCommerce site Attestation of Scan Compliance.

Direct questions to ITS-Security-Compliance at [its-sec-compliance@nebraska.edu](mailto:its-sec-compliance@nebraska.edu)

The "Attestation of Scan Compliance" is a one page document from an approved scanning vendor (ASV) that 'certifies' the PCI External Scan was properly scoped to include the merchants ecommerce host(s)/site(s), all the necessary tests were performed, and the host(s)/site(s) passed the PCI External Scan. The scan and attestation needs to be completed every 3 month (quarterly) for SAQ-A ecommerce sites to be compliant with PCI and Elavon's requirements. The document will be 1 page document clearly titled "Attestation of Scan Compliance" and will probably be a PDF. The attestation must will include the following sections or elements:

- Scan Customer Information (3rd party ecommerce package provider)
- Approved Scanning Vendor Information (Tenable or Qualys or ???...)
- Scan Status (Pass and scan expiration date is 90 days from date scan completed)
- Scan Customer Attestation
- ASV Attestation

The "Attestation of Scan Compliance" will look similar to the example below.

**ASV Scan Report Attestation of Scan Compliance**

A.1 Scan Customer Information
